

“Be the reason someone smiles today”

School Counselor:

Dear Parents and Families,

Welcome to Main Road School! I am excited to develop relationships with each of you and your children so that they can reach their social, emotional, and academic potentials. My job is to help facilitate a friendly, kind, and respectful educational community. At Main Road, we focus heavily on character education, social-emotional learning, and building confident and independent students.

I am Main Road's Intervention and Referral Services (I&RS) Coordinator, 504 Coordinator, and School Counselor. Please note that school-based counseling is provided in short-term blocks of time (approximately 5 sessions) and are provided to help students overcome obstacles that stand in their way of achieving optimally in the educational setting.

If you are looking for more long-term counseling or mental health counseling, I would be happy to provide community resources that may be of service to you!

I'm looking forward to meeting you all and kicking off a great school year!

Dr. Lauren Loughlin
School Counselor
